EDUCATION

Indian Institute of Information Technology, Guwahati

June 2025

Bachelor of Technology in Computer Science

Kullu Science School Kullu

May 2021

Senior Secondary

SKILLS

Programming Languages: C/C++, C sharp, Javascript, Typescript, Java, Python

Tech Stack: HTML5, React.js, Node.js, Supbase, MySQL

Tools: Git/GitHub, Amazon Web Services, VS Code, Docker, Unity

EXPERIENCE

MAQ Software

January 2025 - July 2025

Associate Software Engineer

Noida, India

MAQ Software

July 2025 - Present

Software Engineer 1

Noida, India

- Developed and maintained ETL workflows leveraging PySpark, SQL, and KQL to handle and transform large volumes of structured and unstructured data.
- Built and automated CI/CD pipelines for Synapse Fabric notebooks, reducing deployment time and ensuring consistent delivery of high-quality data solutions.
- Collaborated with cross-functional teams to analyze and manage Microsoft Virtual Machine data, delivering insights that improved operational efficiency.

PROJECTS

Youtube Ad Recommender - [GitHub](#) | *Python, NLTK, Scikit-learn, Matplotlib*

August 2023

- Cleaned and preprocessed video titles and descriptions using NLTK.
- Explored class distribution and identified key text features for each category using TF-IDF vectorization.
- Used Naive Bayes and SVM for accurate multi-class video category classification.
- Achieved 0.97 (Naive Bayes) and 0.98 (SVM) accuracy, evaluated with precision-recall curves, analyzing over 3000 videos and 6300 advertisements.

Health App - A Disease prediction app - [GitHub](#) | *React Native, Python, Flask*

April 2024

- Led the development of a comprehensive health application integrating disease prediction, medicine finder, and a health chatbot.
- Utilized React Native for frontend development and Flask for backend operations.
- Integrated machine learning algorithms for disease prediction based on user-provided symptoms.
- Provided clear setup instructions for local development/testing, ensuring easy adoption by team members.

EXTRACURRICULAR ACTIVITIES

Yuvaan PR Team | *Head*

2023 - 2024

- Managed all aspects of artist relations and pronite logistics, guaranteeing smooth performances and memorable experiences for attendees, Facilitated seamless communication with partner colleges and renowned artists, ensuring successful collaborations
